This tutorial will familiarize you with the different parts of the Atlas screen, including the **Map Frame**, the **Map List**, **Attribute frame** and the **Toolbars**, all of which have been outlined and labeled in red below.
Map List Button

Allows user to select different maps available under a particular theme.

Eg: Theme - General Characteristics

→ Map - Landuse
Layers frame shows the legend of the layers. It also allows the user to switch Layers On and Off.
Attribute Frame

Attribute frame Displays the attributes of the selected feature.

<table>
<thead>
<tr>
<th>Attribute</th>
<th>Value</th>
</tr>
</thead>
